DEFINITIONS

Term	Definition
ESR	Each applicant will receive the evaluation result in the form of an Evaluation Summary Report.
Lump Sum	The lump sum is a simplified method of settling expenses in projects financed from Horizon Europe funds. It means that you as a beneficiary are not required to present strictly defined accounting documents to prove the cost incurred (e.g. invoices). However, you are obliged to demonstrate the implementation of the project in line with the deliverables set for it. It means that we will carefully assess your progress and the quality of your work during Interim Reviews, not your accountancy. The deliverables will be fixed in the implementation plan elaborated at the beginning of the programme. The lump sum does not release you from the obligation to collect documentation to confirm the costs under fiscal regulation. (https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/programmes/horizon/lump-sum).
Open Call	Financial support for third parties in the framework of an EU funded project (https://webgate.ec.europa.eu/funding-tenders-opportunities/pages/viewpage.action?pagelId=25559615).
OCMB	The Open Call Management Board (OCMB) consisting of UNPARALLEL Innovation (UNP), Universidad de Salamanca (USAL) and Acceligence LtD (ACCELI), who are responsible for the good and timely execution of the sub-projects.

Sub-grant agreement	<i>A legal document signed between the third party(ies) and the OCMB that establishes all the terms and conditions for the sub-project's execution and financing.</i>
SMEs	<i>Entities having up less than 250 employees and up to an annual turnover of 50 million € or up to a balance sheet total of 43 million €. Small and medium-sized enterprises (SMEs) are defined in the EU recommendation 2003/361 (https://single-market-economy.ec.europa.eu/smes/sme-definition_en).</i>
Third Parties	<i>Legal entities that participate in Horizon Europe by carrying out some tasks in an action, but which do not sign the Grant Agreement (including entities linked to the beneficiaries). They are not bound by the terms and conditions of the Grant Agreement and consequently, the European Union (represented by the Commission or another funding body) has no obligation vis-à-vis third parties. If necessary to implement the action, beneficiaries may use contracts and sub-contracting for the purchase of goods, works or services, in-kind contributions provided by third parties and also linked third parties carrying out tasks under an action.</i>

INSTRUCTIONS [DELETE IN THE FINAL VERSION]

This template must be used for any submitted proposal do the CHAMELEON Open Call in order to assure coherence between applications and that the expected info is provided. On each chapter/section you will find a brief introduction to what's expected. Please **delete this chapter** as well as **all the chapter/section instructions** in the final version of this document.

You should **follow the formatting provided by this document**. This includes font styles, sizes, colors and associated elements (always select one of the provided formats, e.g. Heading 1).

Figures and tables should all have a **caption**, be **referred in the text** and included in the provided list (use the given caption format and update the list).

Apart from exceptional cases where the suggested doesn't apply, all the provided chapters/sections must be filled according to the instructions. On the other hand, if for your specific project you require an additional section to better describe your proposal, feel free to add it as long as it respects the document formatting. However, this should be restricted to very specific scenarios and **should not drastically affect the structure of the document**.

The final version of this document must not have more than **10 pages of content** (excluding cover, tables and definitions).

SUB-PROJECT DESCRIPTION

In this chapter you should describe all the technical aspects of your proposal.

Table 1 - Sub-project details

Sub-Project Details	
Title	
Acronym	
Bundle Code*	

* If this is a proposal on one of the bundles suggested in the Guide for Applicants, please provide de bundle code here.

Table 2 - Applicant's details

Applicant's Details	
Company/Organization Name	
Country	
Full Address	
VAT Number	
PIC Code ¹	
Legal Representative	
Email	
Phone Number	

¹ Participant Identification Code (PIC) is a 9 digit code you need for participating in European projects. If you already have one, please insert the code. If you have not yet, please insert your provisional PIC code.

GENERAL DESCRIPTION

Give an overview of the proposal. Describe the problem at hand, the proposed approach and how it will be used. The main goals of this sub-project should be clearly described.

WORK PLAN

List all the activities/stages to be carried out during the project. After this, the reader should clearly understand the sequence of activities that will lead to the objectives listed in the previous section.

TECHNOLOGICAL APPROACH

Describe the proposed technical approach, the tools to be used and/or developed in the scope of the sub-project. Graphical representation of architectures, correlation of elements/components, etc. are welcome (if available at this point).

KEY PERFORMANCE INDICATORS (KPI)

The expected KPIs should be emphasised, as they constitute an important evaluation tool.

APPLICANT INTRODUCTION

Introduce the company or consortium responsible for the project. Give a background and the projects/activities carried out as well as the business ambitions.

DISSEMINATION

Describe how you plan to disseminate what will be developed. This should be a general idea of the plan and not necessarily something concrete, as it can be further developed in Stage 1. In addition to the dissemination methods, the target(s) should also be mentioned and justified.

IMPACT

BUSINESS IMPACT AND EXPLOITATION

Describe the expected business impact of the proposed sub-project and how the company plans to exploit the results for their own businesses.

TECHNOLOGICAL EXCELLENCE

Describe the novel/innovative elements of the sub-project and how it is relevant for the CHAMELEON project.

BUDGET

List all the planned costs of execution, that will add up to the total budget to be granted. It should be as detailed as possible.

Table 3 - Budget description

Type	Cost
<i>Personnel</i>	
<i>Travel</i>	
<i>Equipment</i>	
<i>Other goods/services</i>	
<i>Subcontracting</i>	
<i>Indirect</i>
